

CUSTOMERS & PUBLIC RELATIONS COMMUNICATION

It is with regret that we announce that Mike Matthews, our Managing Director, will no longer be working with Nifco, this takes effect from 25 January.

Mike joined the business 30 years' ago, and, after meeting all his objectives, has decided to leave the Company.

Mike has worked in Manufacturing, doing the same type of work, for almost 40 years, since leaving school, with the past 10 years, or so, also contributing to the operations of North East organisations such as the North East England Chamber of Commerce (previously, holding the post as their President), the Tees Valley Combined Authority and the NE Automotive Alliance (as Vice Chair) amongst many other organisations.

Mike's passion lies in sharing his knowledge and experience with business organisations and local businesses towards developing the economy, and he wishes to fully concentrate his efforts in this direction.

Mike has stated that leaving Nifco is a big wrench, after so many years' service – but he has little chance to do justice to both his job at Nifco and to the business environment – Mike himself has grown with the business, and to this end, he wishes the Nifco Group, and everyone at Nifco, growth and success.

We would like to thank Mike for his contributions to the business, and we have no doubt that he will prove to be a success in his future endeavours.

Going forward, we will have a new organisational structure in place, which will be announced in due course.

Any concerns received about the change to be directed to:
Sales: HR Department
PR: Marketing/Communications Manager
